

5th International Congress in Russia and CIS countries

BI^oETHANOL™ CONGRESS & EXPO 13 - 15 APRIL 2010 • MOSCOW RUSSIA

April 13-15, 2010
Moscow World
Trade Center

Russian Biofuels Association would like to invite you to attend 5th International Congress "FUEL BIOETHANOL - 2010" and would be honored if you would consider joining us in Moscow. The event will be held on April 13-15, 2010 in Moscow in the "Moscow World Trade Center". The previous, 4th Congress "Fuel Bioethanol - 2009" (was held in April 2009) gathered more than 300 senior executives from over 15 countries to discuss topics from feedstock to marketing.

The goal of the Congress is to help stakeholders from Russia, Ukraine, Kazakhstan and other CIS countries to find answers for questions:

- ▶ What is bioethanol? Why is bioethanol used as a fuel?
- ▶ Why world bioethanol market grows so fast?
- ▶ How to build bioethanol plant?
- ▶ Where to get money for your project?
- ▶ Where to sell bioethanol and its co-products?

We have invited leading bioethanol experts from Europe, USA and Russia to speak at the Congress. Some topics for discussion:

- ▶ The state of the industry: Russia, Ukraine & Kazakhstan
- ▶ 2G ethanol: progress in technology and development in Russia
- ▶ High value-added products from starch and glucose: organic acids, bioplastics and chemicals
- ▶ Oil Industry position on biofuels and the oil industry expectations
- ▶ FE plant economics: Dry-Mill vs. Wet-Mill, Energy Integration
- ▶ Case study: Fuel ethanol project economics & financing
- ▶ Ethanol 101 - Points to Consider When Building an Ethanol Plant
- ▶ Regulatory and legal frameworks for fuel ethanol industry in Russia
- ▶ Generating Revenues From Co-Products (Distillers Grain and Carbon Dioxide)
- ▶ Ethanol Impact on Russia & CIS grain Supply and Demand. Will there be enough feedstock?
- ▶ The Ukrainian and Kazakhstan Ethanol Market - Ready for Take-off?
- ▶ Case study: Regional administration support of fuel ethanol projects
- ▶ Panel discussion: Development of 1G & 2G bioethanol market in Russia and CIS countries

Past participants:

Louis Dreyfus, Lukoil, Gazprom, Dupon, GEA Wiegand, Genencor, Lurgi, Maguin Interis, Nefis Cosmetics, Noble Resources, Titan, Vodka Russian Standard, Bioethanol-South, Novozymes, Praj, Sibur, Sulzer, Symitomo, Syngenta, TatNeft, Ukos, Ford, Gazprom Oil, Direct-Holding, Abercade Consulting, Administration of Omsk region, Administration of Volgograd region, Asia Invest, Avtotor, Azot, Biohim, Bioprocess Group Company, Biovizyon, BM, Chemsynthesis, Columbus, Corporation Fuel Technologies, Ecologia, European Commission, Excess Industries, Fair Energy, Fermentis, Food contract corporation, Grace, KazAgro, Kazakhstan Government, Massory-Russia, Merloni Progetti, Mezgreionagro, Mitsui, Moscow State University, RosAgroChem, Russian Starch Products, Russian Grain Souz, Russkaya Neftegazovaya Company, ShekinoAzon, Shepetovka sugar mill, SiberiaEnerg, VolgoBioEthanol, Volzgsk Grain Company, Woodison Terminal, Zernoff.

Organizer:

It is very helpful even, united the community and get people talking about different projects here in Russia and Ukraine. <...> The organization of the conference was phenomenal; we definitely have adequate time, well planned.

Bryce Meeker, CEO, Agro Energia Bioethanol Project, Ukraine.

I liked the vivacity of the congress, it was really surprising, people discussed all array of topics regarding biofuels as well as many topics from interconnecting industries — a petroleum industry, engineering, etc. This Congress is very good arena for an exchange of opinions in these questions.

Vladimir Voronov, Sales Director, GE, Russia.
